School, Child Evangelism, Teacher Training and
Vacation Bible School.

In addition to these there are quite a num-
ber of practical subjects which help the student
to be "thoroughly furnished unto every good
work". These are included under such titles as
Homiletics, Church History, Missions, Hermen-
eutics, Polemics, English, Church Discipline,
Prayer, Parliamentary Law, and Music.

A thorough knowledge of all the foregoing
subjects is only of real value as we use it in
practical service. Therefore we, as a school,
arrange as many outlets for service as possible.
These include institutional work in hospitals,
jails, and old folks homes as well as out-station
work in new fields or in assisting near-by pas-
tors. There are weekly student services which
give students an opportunity to get experience
in various aspects of a gospel service. Bible
clubs are also conducted which give valuable
experience in children's work.

A Bible teacher of sainted memory called
the Bible the Christian's "happy hunting
ground." We can assure you that we find great
delight as we gather with our students within
our hallowed class rooms to consider the pre-
cious truths of God's Holy Word. We extend a
warm welcome to all Christian young people
to join us as we pursue our search in the
Christian's "happy hunting ground".
