

Soul Clinic

"But we will give ourselves continually to prayer, and to ministry of the Word." Acts 6:4

This is the two-fold oath that members of Soul Clinic, the personal evangelism arm of Trinity Bible Institute, have taken.

Prayer is vital to this group which represents a large percentage of the student body. One hour of prayer per day for the souls of men is their criteria for the street witnessing which they do.

Their ministry, which is tainted very heavily with the "Hello neighbor" approach, has proven itself very effective. Souls that have been won by its Spirit led members attend the Institute today and are growing strong in the Lord. The group has also aided greatly in getting the town of Jamestown acquainted with Trinity youth.

Practical Works

Practical Works at Trinity this school term has taken advantage of the opportunities offered it in its new surroundings and is experiencing a thriving growth and ready acceptance by the hearts blessed by it.

There are from last year's program in Aberdeen only two carry-over ministering areas. Twenty groups are sent out every week this school term to minister. Of these twenty groups eleven are those that go out on Sundays to participate in area church programs.

These programs are the exercise that brings the muscle to that which is taught in the classroom and aid greatly in preparing students for their future various ministries.
